

## FC 500

# The compact, efficient solution from REK

Efficient cleaning with solvents

Reliable technical cleanliness

Many feeding options for the cleaning system

## Applications

Medicine, electronics, supply industry, machining/non-machining production, bulk goods, set goods

## Configuration

All fluid cleaners can be customised in terms of basket dimensions and process steps and are available in various standard versions and special solutions.

Our entry-level model is the Fluid Cleaner 500-V with the following options:

- 12" touchscreen with visualisation
- Continuous distillation
- Full-flow filtration

Extra options:

- Hatch version
- Double chamber
- Clean room version

Cleaning with:

Hydrocarbons

Modified alcohol

DOWCLEN 1601

Zestron VD

Top components

Stainless steel version
